

MY GAS HEATER

Gas will run through
my heater but it will
not light, except as an
explosion. I like to
make explosions, the
ball of fire trimming
my hair, curing my
pimples and scaring
the neighbors to keep
them under control.
To also keep the bugs
honest. To keep the cat

curious. And this
is much cheaper than
being warm all the time.
Fact is, I like being cold too.

SUSPICION

They suspect
that the empty bottles
were once full,
and that they
will probably
one day be full
again, and thus
valuable. So they
hoard bottles.

TELEPHONE NEED

You'll have to call me
on the telephone -- I never
talk to people in person
because I like the intimacy

NONSENSE

Nonsense already
comes in small
medium and large
but now

they want
extra large
for all the
people who have

really pigged themselves.

of my hand between my
ear and mouth on a smooth
handle. You doing the same
thing is as near as I get
to mutual orgasm.
